

Introducing Web sites that are taxpayer friendly.

Of course, that doesn't mean they're not user friendly. On the contrary.

As an approved Congressional vendor, Pixel Head's Web solutions offer a variety of features, such as online polls, newsrooms, and photo galleries, that you can easily update and control yourself. Our custom designed, self-maintained Web sites will save you and your staff time, effort and, best of all, money.

If you're considering upgrading your Web site in 2004, please give Jim Schiefen a call at 607-732-4540. After all, at prices that are up to 50% less than our competition, it's a great opportunity to reduce government spending.
